**Did you know...**each year the average family throws away enough stuff to fill up their entire house? And that even with recycling, each American still sends 1,150 pounds of trash to landfill?

So, to make less trash, we all need to use a little less stuff, and that's what this contest is about! We want to hear your great ideas, but you can only win if you enter!

### YOUR ULS IDEA:

In the space below, briefly describe your waste-saving idea or tip, and how it has been used in your home, school or community. Remember, the emphasis must be on creating less waste in the first place, rather than on recycling it.
